## Job Vacancy: Customer and translation support trainee

N° of positions available: 1

Starting date: 01.03.2022

Apply by: 13.03.2022

**Description of the company:** FB Innovation has developed Pin Bike, a system that allows Municipalities to engage and reward citizens that choose to use bicycles, carpooling and Public transports as their daily means of transportation. The project lies on patented technology that, thanks to a hardware connected to a Smartphone, allows to certify movements and rides with an anti-fraud mechanism. The project has three main objectives:

- Encourage citizens to be aware of sustainable mobility (either with bicycles, electric scooters, local public transport and carpooling)
- Encourage proximity trade and support local shops (the rides done using Pin Bike devices can be traded with vouchers to be used exclusively with local shops)
- Provide the Public Administrations with a digital tool through which they can monitor and plan traffic and urban mobility, check movements heat maps according to the time of the day, age, time-slots, send surveys and direct messages to citizens
