Job description:

For permanent positions we are seeking to employ more specialist doctors to both our adult and Child & Adolescent psychiatry care.

Together in a team of doctors, nurses, assistant nurses, psychologists and social workers you provide care, planning and motivation of your patients.

Sweden has a developed social welfare system and good resources for working with these patient groups with a shared responsibility between the health care sector and the municipality. We are working actively with digital solutions [e-psychiatry], innovations and psycho education. Our clinics offer bright, calm and spacious facilities with access to gardens - a sound and health promoting environment for both patients and staff.

Sahlgrenska University Hospital is located in the city of Gothenburg in the Region Västra Götaland, governed by democratically elected politicians and is with just over 55,000 employees one of Sweden's biggest employers. Our mission is to offer good healthcare and dental care and to provide the prerequisites for good public health, a rich cultural life, a good environment, jobs, research, education and good communications to our 1.8 million
